

Science Homework Week 16 (_____)

Monday – Work on the Genetic Disease Project (PowerPoint) due Wednesday December 9.

Tuesday –Work on the Genetic Disease Project (PowerPoint) due Wednesday December 9.
Be ready to present tomorrow (with your notes!).

Wednesday – Vocabulary 16

Alleles-different forms of a trait

Dominant- a trait that will always show itself

Recessive- a trait that stays hidden unless both genes are recessive

Genotype- the genes present for a trait

Phenotype- the trait that shows up for the genes

Thursday – Write me a paragraph about what grade you think you should receive for the Genetic Disease project and why you think you should get that grade. Include the grade for your partner if you had one.
