

## Science Homework Week 26 (\_\_\_\_\_)

Monday – Create 2 pictures for the Evolution Layer book ( one for Modern Genetics and one for Morphology). Create a drawing and use one other material to make it spectacular!

Tuesday –Vocabulary 26

Resources – all the things an organism needs to stay alive (food, water, space)

Overproduction – having so many offspring that not all can survive

Resistant – to act against; an organism that is not affected by a chemical

Struggle to Survive – the idea it is hard for a living thing to survive and not enough resources

Successful Reproduction – the idea that the things that survive pass on their traits to offspring

Wednesday – Darwin Coloring/Reading (worksheet)

Thursday – Create 2 pictures for the Evolution Layer book (one for biogeography and one for Drug Resistance). Create a drawing and use one other material to make it spectacular!
