

## Science Homework Week 30 (\_\_\_\_\_)

**Monday** – Write 10 living things and then put them into 3 groups. They can be in any groups you choose but here are some ideas: their size, how they move, what they are covered with, where they live, and number of legs.

### **Tuesday** – Vocabulary 30

Classification – putting things into groups based on how they are similar

Kingdom – the largest group of living things

Species – a group of organisms that can mate and have offspring, which can have offspring

Archaeobacteria – the newest kingdom of living things

Eubacteria – the group of one-celled living things that have no nucleus and get their food in many ways

### **Wednesday** – Kingdom Worksheet

**Thursday** – Write 5 Cornell Questions and a 3 sentence summary on the Kingdom/Classification Notes!
