

## Science Homework Week 7 (\_\_\_\_\_)

We will begin using microscopes on Monday. You must pass this quiz to use the microscopes! You also must have all contracts turned in to Mrs. DuPar!

Monday – Work on Scientist Baseball Cards (due tomorrow)!

Tuesday – **Vocabulary 7**

Cell – a structure that has all the parts necessary for life (Example: a heart cell)

Tissue – many cells together that do a similar job (Example: one part of the heart)

Organ – tissues that form together to do a job (Example: the heart)

Organ system – many organs that work together (Example: the circulatory system)

Organism – a whole living thing which may be one or many cells (Example: a human)

Wednesday – Finish Organization of Living Things Sketch & Write **Cornell Notes** questions for the cell notes.

Thursday – Write a **summary for the Cell notes**. Get **packet 3** ready to be turned in!
